I am writing this letter to tell you how much you have inspired me and how I yearn to be in your shadow. I first thought this world had lost its colour, plunged into violence and fear. But then you showed me how the world can be changed. Just love and duty towards your country and fellowmen will do the magic. Nothing is more precious than peace as it is the most basic point for the advancement of humankind to another level. ✓

You showed me that one should take pride in what he is. You can't be pushed down, submerged in a sea full of hypocrites. You can't just be pushed out of the way. You need to make your way through. You taught me that united one stands, divided one falls. ✓ That's why we should fulfill our duty towards our fellowmen and treat one with immense care and respect.

With you imbibing all these values, tell me how can one not look up to you. Everybody will try to follow your footsteps. Here, you have left a deep impression in my heart and I will always look up to you as my role model. You have certainly influenced my way of thinking. You have thrown in my life positive light which is way brighter than the sun up so high. For this Bapu, I thank you with all my heart for you gave meaning to my life. ✓

I am really impressed with your Quit India movement against the British. You have shown us that problems can be solved even if it is exceedingly difficult. One has to have the determination and patience. Even if one finds himself stuck at a crossroad but his mind is studded with the words 'I won't give up' then definitely he'll find a path anew.
