6. Evaluation of Bids

6.1. Technical Evaluation

1. Detailed technical evaluation shall be carried out along with other conditions in the RFP document to determine the substantial responsiveness of each bid. For this clause, the substantially responsive bid is one that conforms to all the eligibility and terms and conditions of the RFP without any material deviation.

2. The Technical Evaluation Committee, duly constituted by DOP, may call the responsive bidder(s) who comply with all terms and conditions of the RFP for presentation and demonstration of the proposed software solution and how their technology and the methodology is best suited for DOP. The committee will also award marks based on the presentation made by the bidder and as per item 1.7 of Technical Evaluation Scoring Model.

3. Technical scoring will be done as per the Technical Evaluation Criteria and a bidder has to score a minimum of 70 (=>70) to qualify for the Financial Evaluation.

6.2. Financial Evaluation

The Financial Bids of those Bidders who have been found to be technically eligible will be opened. The Financial bids of ineligible bidders will not be opened.

The Financial Bids shall be opened in the presence of representatives of technically eligible Bidders, who may like to be present. DOP shall inform the date, place and time for opening of the Financial Bids.

6.3. Evaluation and Comparison of Bids

70 % weightage will be awarded for Technical Evaluation and 30 % weightage will be awarded for Financial Evaluation

Technical Bid will be assigned a Technical score (Ts) out of a maximum of 100 points, as per the Technical Evaluation Criteria Scoring Model provided in the previous section.
The commercial scores would be normalized on a scale of 100, with lowest score being normalized to 100 and the rest being awarded on a pro-rata basis. Such normalized scores would be considered for the purpose of QCBS based evaluation, explained in section below.

6.4. Final Evaluation Criteria - Quality and Cost based Selection (QCBS)

1. The \( F_m \) (lowest evaluated Financial Bid) Bidder shall not automatically qualify as the successful Bidder and for award of contract by the Tendering Authority. The CQCCBS (Combined Quality Cum Cost Based Selection) method will be applied to determine the successful Bidder on the basis of combined Technical and Financial Bid scores.

2. Accordingly, the solution with the lowest evaluated Financial Bid \( (F_m) \) will be given the maximum financial score \( (S_f) \) of 100 points. The formula for determining the financial scores is the following:

\[
S_f = 100 \times \frac{F_m}{F},
\]

in which \( S_f \) is the financial score, \( F_m \) is the lowest price and \( F \) is the price of the Bid under consideration.

3. Bidders will be ranked according to their combined technical \( (S_t) \) and financial \( (S_f) \) scores using the weights \((T = \text{the weight given to the Technical Bid};\ P = \text{the weight given to the Financial Bid};\ T + P = 1)\) indicated below.

4. The combined score \( (S) \) will be calculated as follows: \( S = (S_t \times T) + (S_f \times P) \). The Bidder achieving the highest combined technical and financial score will be the successful Bidder.

5. The weightage to be given to the Technical and Financial Bids are:
   i. Technical \( T = 70\% \)
   ii. Financial \( P = 30\% \)

6. The Bidder whose combined score \( (S) \) is the highest will be referred to as the ’H1’.

7. Important Instructions
